

Intersections: The LGBTI II Survey – Bisexuals Analysis

In the seventh of our series of Intersections reports, deep-diving into the data from the European Fundamental Rights Agency (FRA) 2019 LGBTI Survey II, we have collaborated with Bi+ Nederland, to further understand the challenges faced by bisexual people.

Disaggregated data, which can look deeply into the lived experiences of marginalised people, is a key demand of LGBTI and other human rights groups. With this in mind, over the last year ILGA-Europe have been partnering with a variety of NGOs in the region to analyse the FRA 2019 LGBTI Survey II data and pull out experiences of those experiencing intersectional marginalisation. This work is based on analysis co-commissioned by ILGA-Europe and TGEU.

This briefing summarises the findings of data analysis disaggregating the responses of bisexual people from the responses provided by all LGBTI respondents to the 2019 FRA LGBTI Survey II, in order to show the differences in their lived experiences compared to the overall community.
