Foreword

This Annual Activity Report is the report from the Executive Board to our members on the activities of the staff and the board in relation to the Work Programme approved by the Budapest conference in October 2004. It covers the period between the Paris conference in October 2005 and our Sofia conference in October 2006.

We got on track working with a Strategic Plan, and we learned to work with the identified performance indicators reported in the same way as in the 2005 Annual Activity Report. We have of course continued to give account of our activities and developments in the new styled Newsletter and the Euro-Letter as they have occurred.

For one of our staff members, Sofia is the last conference: Olivier Collet will be leaving us after this conference, as he will take up again his studies to finish his degree, and after years of hard and dedicated work we want to thank him for his dedication to ILGA-Europe.

A board member left us during the year: Philipp Braun was elected ILGA Co-secretary general at the ILGA conference in Geneva in March this year, and at the September board meeting he resigned. We thank Philipp for the great work he did in the board and at the United Nations, and we wish him a lot of success in his new function.

We welcome Inge-Lise Paulsen as board member to replace Philipp as first reserve Elisabet Qvarford had previously resigned for personal reasons. We would like to thank Elisabet very much for the work she had already done in the board over the last year, and we wish her very well for her studies and hope to see her back again once she will have finished her studies.

This year we were more than before confronted with violent anti-pride demonstrations and bans of pride events. One of the most violent events was the Moscow Pride where ILGA- Europe board members Pierre Serne and Kurt Krickler suffered physical injuries after violent attacks by counter demonstrators. In other Eastern European countries, some already part of the European Union, pride organisers also had to experience a lot of hatred and violence against the pride events they were organising.

A special thank to the whole committed staff team for the great work they accomplished this year again, in order to combat discrimination based on sexual orientation, gender identity and gender expression and to promote equal rights for LGBT people in and outside the European Union – often in collaboration with other European NGOs, thus mainstreaming our issues in a more global context of human rights and multiple discrimination.

We are fortunate to be able to build on this excellent co-operation between the staff, the board and the many volunteers that help maximise our efficiency and output. Without any of them it would be impossible for ILGA-Europe to make the significant achievements outlined in this report, but inevitably new challenges await us.
Future perspectives

The second year of using ILGA-Europe's Strategic Plan 2005-2008, as adopted in Budapest in 2004, to guide and evaluate the activities of the organisation, has shown – as this activity report will tell – that ILGA-Europe continues achieving a lot of progress in pursuing its six strategic objectives set out in this Strategic Plan.

Moving into new office premises to be shared with ILGA and securing additional non-EU funding in the last year have further consolidated the organisation's operational basis and will open up new opportunities – on top of the synergetic side-effects of sharing offices. The additional funding sources will enable us to intensify even more ILGA-Europe's outreach work in areas such as capacity building and support to the LGBT movement in the less developed parts of Eastern and Southern Europe.

Continuing in this pace, we are confident that ILGA-Europe will make an enormous impact with regard to these strategic objectives by 2008, which, however, will not be obsolete but continue to be of great relevance for our work also beyond that date. Much remains to be done, and certainly, there is no reason for complacency. There are still many political challenges in front of us, such as being granted NGO (Roster) Status with the United Nations' Economic and Social Council (ECOSOC), to mention just one. We have been pursuing this goal for some time now, and it seems that much more lobbying work has to be invested here to finally succeed. With regard to improving and strengthening ILGA-Europe's own capacities – again to mention just one example – the plan to develop our website into an interactive communication tool and platform to facilitate the exchange between all our members is definitely a priority for the coming year.

ILGA-Europe can again look forward with very promising prospects on the coming year, and we hope that, together with and with the support of all our member organisations, we will again make it a very successful year.
Strategic Plan

Introduction

This document reflects on the achievement by ILGA-Europe of its strategic objectives for the period October 2005-October 2006.

The Strategic Plan 2005-2008 was agreed by the Paris 2005 Conference and this is the plan that now guides the work of the organisation over a 3 year period.

The report is structured under the Strategic Objectives – naming the achievements under each and outlining the work to be undertaken under that objective for the next year of the Strategic Plan – up to October 2007.

The Strategic Plan has indeed proved to be a very useful tool in directing the work of the organisation, enabling us to position the activities in a focused manner and in taking a longer timeframe for work projects/programmes.

In the period since October 2005 we have moved offices and recruited two interns to work on various projects in the areas of communications, media, advocacy development and strengthening the capacity of member organisations.

Financial Report 2005

Overview

The accounts presented are for a 16 month period, from 1st January 2005 to 30th April 2006. This extended accounting period is a one-off measure needed to move ILGA-Europe’s accounting year-end from December to April. The purpose of this change, which was approved at the 2005 Annual Conference, is to simplify ILGA-Europe’s financial reporting and audits.

The extended accounting period makes comparison with previous years difficult. However, the underlying trend in income and expenditure levels was again upwards and shows a real continuity and stability in our financial situation.

Expenditure was balanced by income, reflecting the fact that the great majority of ILGA-Europe’s expenditure is derived from grants awarded for specific purposes. European Community funding contributed approximately two thirds of the total grant income, with the Sigrid Rausing Trust, the Open Society Institute, the City of Paris, IBM, the Government of the Netherlands, Stichting ILGA-Europe and certain member organisations (COC (Netherlands), LLH (Norway), Arcigay (Italy), LOS (Switzerland), David and Jonathan (France), CIG (Italy)) providing the rest.

Comparison to budget

The indicative budget for 2005 approved at the Budapest conference proposed expenditure of €855,277 for 12 months. In the event, total expenditure over the 16 months (€1,065,319 euros) was 125% of this amount, and therefore broadly consistent with the budgeted level of expenditure. Even though, there was a slight under spending (about 25,000 euros) of the EU grant budgeted, mainly due to staff and travel under spending that couldn’t be totally compensated by overspending on other items (mainly services like information dissemination). It is one of our main goal to diminish even more this under spending of our budgeted grant.

Comments on the individual activities are as follows:

EU co-funded activities

- Total Secretariat Costs are consistent with the budgeted levels of expenditure
- Within the heading Governing Bodies, the cost of the board meetings has increased, with a larger board since the Paris conference, and expenditure on board development.
- Work Programme Activities show a significant increase compared to the levels of expenditure in the
indicative budget. This was prepared before detailed activity plans were available. **Policy Work and Information Dissemination** includes the newsletter, development of the web site, and reports on social inclusion, health, the EU’s role in ending criminalisation in third countries, and on the employment, asylum and free movement directives. The cost of **EU Coordination Network meetings** includes both the 2005 and 2006 annual meetings. **Seminars** include human rights documentation and fundraising seminars held in Krakow and Ljubljana.

**East Europe, Council of Europe and Transgender Programmes**

- **Staff costs** are below budgeted levels of expenditure, reflecting gaps between appointments.
- **Seminars and project activities** include costs associated with the OSI health project, a fact-finding visit to the Caucasus, events at the OSCE and Council of Europe, transgender group meetings, and the elements of the Krakow and Ljubljana capacity building seminars relating to participants from outside the EU.
- **Annual conference, including scholarships**: mainly the cost of non-EU scholarship participation in the Paris conference, made possible by the generous support of IBM, the City of Paris, and a number of member organisations, as listed in the overview above.
